

## **PROGRAMMER/SYSTEMS ANALYST – WILLIAMSVILLE, NY**

National Fuel is currently seeking a Programmer/Systems Analyst for an outstanding career opportunity at our corporate headquarters in Williamsville, New York. As part of the National Fuel team, the successful candidate will enjoy a challenging work environment with a strong and growing company.

The successful candidate will support a variety of corporate departmental needs through the maintenance and enhancement of critical business applications in the IBM mainframe and Microsoft Windows environments. While the day to day responsibilities primarily involve coding and testing activities, the successful candidate will utilize the full development life cycle including business requirements, design, coding, testing, documentation and project coordination.

Candidates must possess a minimum of an Associate's degree in Computer Information Systems, Management Information Systems, Computer Science or a related field. A Bachelor's degree in these fields is strongly preferred. Experience in application development, design, coding in a development language, testing and support is desirable. Candidates must demonstrate initiative and professionalism, excel in a cooperative team environment and possess excellent interpersonal, communication and problem solving skills. The ability to grasp new technologies and programming languages along with the ability to coordinate multiple projects are essential to success in this position. Candidates must be available for off-hours support in the evenings and on weekends.

National Fuel offers a competitive salary and a comprehensive benefits package. For confidential consideration, please submit your resume, cover letter and college transcripts by July 9, 2010 to:
