

## **BUSINESS APPLICATION ANALYST/PROGRAMMER – WILLIAMSVILLE, NY**

National Fuel is currently seeking a Business Application Analyst/Programmer for an outstanding career opportunity within our corporate Information Services group at our Williamsville, New York location. As part of the National Fuel team, the successful candidate will enjoy a challenging work environment with a strong and growing company.

The successful candidate will support a variety of corporate business needs through the development, enhancement and maintenance of National Fuel's information systems. Responsibilities will utilize the full development life cycle including business requirements, design, coding, testing, documentation and project coordination. The successful candidate will be working primarily within the IBM mainframe ZOS environment utilizing Software AG's NATURAL/ADABAS, and in conjunction with a variety of other technologies including Microsoft VB.Net, PeopleSoft, web development tools, Oracle DBMS and MS SQL Server.

Candidates must possess a minimum of a Bachelor's degree in Computer Information Systems, Management Information Systems, Computer Science or a related field. Three or more years of experience in application program design, coding in a development language, testing and support is required. Candidates must possess excellent interpersonal, communication and problem-solving skills and demonstrate the ability to excel in a cooperative team environment. Strong analytical skills, proficiency in software development, and the ability to coordinate multiple projects are essential to success in this position. Candidates must be available for off-hours support calls in the evenings and on weekends.

National Fuel offers a competitive salary and a comprehensive benefits package. For confidential consideration, please submit your resume, cover letter and college transcripts by March 31, 2010 to:
