

COMPRESSOR STATION MECHANIC – ANDOVER, NY

National Fuel currently has an employment opportunity at its Independence Station located in Andover, NY.

A Compressor Station Mechanic is responsible for diagnosis, repair, overhauling, and maintenance of mechanical, electronic, hydraulic, and control systems for large industrial stationary natural gas engine compressors. The position is also responsible for documenting and maintaining associated maintenance/repair records. Occasional overnight travel within NY and northwest PA is required.

Candidates must possess at least a high school diploma or equivalent, and a valid driver's license. Prior experience in troubleshooting, maintenance and overhauling of large mechanical engines is required. Diesel Technician Certification or equivalent work experience and experience in installation/repair of pneumatic and electrical equipment is preferred. The physical capability to work in and around hazards and difficult to reach areas is also required. Candidates must also demonstrate good communication skills and computer/data entry skills. Applicants must live within a reasonable commuting distance.

National Fuel offers a competitive wage and benefits package.

Candidates responding to this ad must refer to the job title, Compressor Station Mechanic, position #10-008NY in their correspondence. For confidential consideration, please mail your resume and cover letter by March 15, 2010 to:
