

National Fuel Issues Correction to News Release Issued August 6, 2007

(August 6, 2007) Williamsville, New York: In a news release issued earlier today, it was stated that National Fuel Gas Company's ("National Fuel" or "Company") (NYSE: NFG) wholly owned subsidiary, Empire State Pipeline ("Empire"), has reached major milestones and is on schedule for its pipeline expansion project, the Empire Connector, to be completed and in service in the fall of 2008. In that announcement, the capacity associated with the contract signed by a subsidiary of KeySpan Energy Corp. (NYSE: KSE) and Empire was mistakenly identified as 150 dekatherms per day (dth/d). The capacity contracted for is 150,750 dth/d.
