

ENGINEERING LEADERSHIP DEVELOPMENT PROGRAM – ERIE, PA

National Fuel is currently seeking an exceptional candidate with demonstrated leadership ability to participate in an exciting **two-year rotational program** through the Company's primary Engineering operations in Erie, PA. Rotations could include Corporate Headquarters in Buffalo (Williamsville), NY, however, you would not be required to relocate your personal residence. The Engineering Leadership Development Program receives exclusive executive and human resources mentoring to assist in job related decisions throughout the program and is given input towards each of the four customized rotational assignments. The Engineer will have specific project responsibilities and will also be exposed to the primary functions of other corporate departments. As each rotation is completed, the Engineer will participate in interactive developmental performance evaluations to aid in their growth as a professional. The successful candidates for this high-profile position will enjoy a career in a strong and growing company and have the opportunity to leverage their unique skill set in a variety of positions throughout the organization. As a member of the National Fuel team, you will enjoy an exciting and challenging work environment where top performance is recognized and rewarded.

PREVIOUS ASSIGNMENTS INCLUDE:

- Field operations and project management
- Utility system pipeline design
- Compression facility feasibility studies and analysis
- Transmission pipeline expansion projects
- Natural gas storage projects

MINIMUM QUALIFICATIONS:

- Bachelor's Degree in Mechanical, Civil, Electrical, or Environmental Engineering (Spring or Summer 2019)
- Minimum GPA of 3.0
- Candidates must be authorized to work in the United States without employment visa sponsorship
- Exceptional verbal and written communication skills and the ability to interface well with others are critical components of this position

PREFERRED QUALIFICATIONS:

- Previous leadership experience
- Experience managing projects in an efficient manner
