

## How to Intervene in Commission Proceedings

### Motions to Intervene

Individuals have the option to intervene in Commission proceedings. Intervenor becomes participants in a proceeding and have the right to request rehearing of Commission orders and seek relief of final agency actions in the U.S. Circuit Courts of Appeal. All motions to intervene should be submitted to the Commission pursuant to [18 C.F.R. § 385.214](#). The Commission expects parties to intervene in a timely manner based on the reasonably foreseeable issues arising from the applicant's filing and the Commission's notice of filing.

Motions to intervene must be served on the applicant. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the [eService](#) link on FERC Online. Service can be via email with a link to the document.

### How to file for intervenor status

The Commission encourages electronic submission of motions to intervene via the [eFiling](#) link on the Commission's website. There are document attachment and document-less options for both timely and out-of-time motions to intervene. All contacts that are to be added to the Service List for the applicable docket must have a validated eRegistration account and their email addresses must be added online in order for their contact information to appear on the service list. The contact's email address will be included as part of the service list information to facilitate electronic service by parties and the Commission.

Persons unable to file electronically should send an original and three copies of the motion to intervene by overnight services to:

**Kimberly D. Bose, Secretary**  
**Nathaniel J. Davis, Sr., Deputy Secretary**  
**Federal Energy Regulatory Commission**  
**888 First Street, N.E.**  
**Washington, DC 20426**

Receipt of mail sent via the US Postal Service may be subject to irradiation and significant delays.
